

**David Lawson**

## **CADD-Design Build/Safety Director**

David began working for Bergstrom Electric, Inc. in October, 1992 after working for an architectural/engineering firm for 6 ½ years. His current duties include, but are not limited to: CADD-Design Build, Safety Director, Corporate Policies, Editor of Company Newsletter & Meeting Coordinator. During his career, David has been involved in almost every type of Design Build project

that includes residential, commercial and industrial applications. Because of his expertise, David is frequently involved in various stages of most projects, from the initial start-up of the Design Build to the project's completion of the Operation and Maintenance Manuals. As Safety Director, David is responsible for the implementation & enforcement of all safety policies, injury management, accident investigations, job-site inspections, OSHA regulations, training & certifications, new employee orientations and drug testing/evaluations.
